Photo 6 - Red cedar treed alvar (ALT1-6). Note sparse cobble substrate.

Photo 7 - Bur oak – shagbark hickory treed alvar (ALT1-7). Note open canopy.

Photo 8 - Ash mineral deciduous swamp (SWD2). The canopy in this swamp was much denser than other treed communities in the Study Area.

Photo 9 - Red ash mineral deciduous swamp (SWD2-2). This community was comprised of relatively well spaced trees.

Photo 10 - Mineral thicket swamp (SWT).
