

Ostrander Point Wind Energy Park

Local Benefits

- Gilead will provide a 20 year revenue source to the County through municipal tax payments.
- Approximately \$5 million will accrue to the local community during construction.
- Approximately 50% of the peak labour force during construction may be supplied through the local community.
- Gilead can expect to pay approximately \$220,000 per year to the province in lease payments.
- The Project is outside of the County's tourism corridor (wine and taste trail) and is not anticipated to have a negative impact on the tourism industry.
